Learning Outcomes/ Competencies: Through appropriate assessments students will demonstrate that they are able to: 1. Remember the necessary steps and procedures for manipulating, simplifying, and solving: polynomial and rational functions, exponential and logarithmic functions, trigonometric functions, and the laws of sine's and cosines. 2. Understand what each procedure, manipulation, simplification, and solution means on a conceptual level. 3. Apply their understanding of polynomial and rational functions, exponential and logarithmic functions, trigonometric functions, and the laws of sine's and cosines to solve application problems.	

<p>4. Analyze problems in physics, economics, business, and biology to determine appropriate methods for solving them using algebra skills and concepts.</p> <p>5. Evaluate proposed solutions with respect to commonly accepted practices used in physics, economics, business, and biology.</p>
<p>Course Description: This course is designed to prepare students for the standard calculus sequence. Topics include polynomial and rational functions, exponential and logarithmic functions, trigonometric functions, and the laws of sines and cosines.</p>
<p>Learning Strategies: Group discussions, lecture, lots of practice via written and on-line assignments. Active participation in class and utilization of resources such as Blackboard and the CCSJ Student Success Center will help ensure your success</p>
<p>Experiential Learning Opportunities: Application problems will be used in each chapter of the course.</p>

Assessments:									
Assignments and tests:	<p>Mathematics is a participation sport! Thus, written and on-line assignments are an integral part of the learning process. Working problems is crucial to your success. Collecting assignments and giving points for them are meant to serve as an incentive. On written assignments, problems should be numbered and adequate work shown for each, with answers clearly marked. <u>Correct answers without accompanying work, where appropriate, will not be given credit.</u> To receive full credit, <u>work should be neat, organized and complete,</u> and should include the student's name, date and class on each page. DO NOT SKIP ANY PROBLEMS. Be sure to <u>give yourself enough time to complete the written and on-line assignments</u> and to get help if needed. LATE ASSIGNMENTS WILL NOT BE ACCEPTED.</p> <p>ASSIGNMENTS AND CLASS SCHEDULE ARE SUBJECT TO CHANGE AND WILL ALWAYS BE POSTED ON BLACKBOARD.</p> <p>On-line (IXL) assignments will be due each week (see posted dates on Blackboard) You MUST do at least 12 problems in each section of the assignments, but can do more (before the due date and time) to raise your on-line (IXL) assignment score.</p> <p><u>It is expected that you will spend 3-5 hours outside of class each week practicing math, as you MUST practice to succeed.</u> <u>NO LATE HOMEWORK (WRITTEN OR ON-LINE) WILL BE ACCEPTED, SO PLAN ACCORDINGLY.</u></p>								
	<p>Several <u>chapter tests</u> will be given during the term and <u>one comprehensive final exam</u> during exam week. Written and on-line (IXL) assignments will also constitute part of the final grade.</p> <table style="margin-left: 40px;"> <tr> <td>Chapter tests</td> <td>40% of grade</td> </tr> <tr> <td>Comprehensive final exam</td> <td>25% of grade</td> </tr> <tr> <td>Written assignments</td> <td>15% of grade</td> </tr> <tr> <td>On-line (IXL) assignments</td> <td>20% of grade</td> </tr> </table>	Chapter tests	40% of grade	Comprehensive final exam	25% of grade	Written assignments	15% of grade	On-line (IXL) assignments	20% of grade
Chapter tests	40% of grade								
Comprehensive final exam	25% of grade								
Written assignments	15% of grade								
On-line (IXL) assignments	20% of grade								

	Grading Scale: (given as a percent of total possible points) A: 93-100 A-: 90-92 B+: 87-89 B: 83-86 B-: 80-82 C+: 77-79 C: 73-76 C-: 70-72 D+: 67-69 D: 63-66 D-: 60-62 F: below 60	
Course schedule:	ASSIGNMENTS AND CLASS SCHEDULE ARE SUBJECT TO CHANGE AND WILL ALWAYS BE POSTED ON BLACKBOARD.	

Responsibilities	
Attending Class	<p>You cannot succeed in this class if you do not attend. We believe that intellectual growth and success in higher education occur through interaction in the classroom and laboratories. However, we do not want to penalize students for participating in college-sponsored events. When you miss class because of a college event, you must give notice of your absence in advance, and you are responsible for all missed work. Being absent doesn't excuse you from doing class work; you have more responsibilities to keep up and meet the objectives of this course.</p> <p style="text-align: center;"><i>Eighty percent of success is showing up.</i> -Woody Allen</p> <p>Attendance is important and is expected (see "participation sport" message under Assignments, above). You are responsible for all material covered in class, including announcements of assignments and quizzes. <u>IF YOU MISS CLASS, YOU MUST CONTACT THE INSTRUCTOR BY E-MAIL (bbasile@ccsj.edu) OR PHONE WITHIN 24 HOURS, TO AVOID THE ASSESSMENT OF A FIVE (5) POINT PENALTY FOR EACH MISSED CLASS.</u> The instructor is more than willing to meet you halfway on this, but remember that there are TWO halves.</p>
Turning In Your Work	You cannot succeed in this class if you do not turn in all your work on the day it is due. <u>LATE ASSIGNMENTS WILL NOT BE ACCEPTED.</u>
Using Electronic Devices	As a matter of courtesy, electronic communication devices should be switched off; <u>texting is out of place.</u> In the event of necessity for answering a cell phone during class, please inform the instructor ahead of time and set the device to "vibrate", if possible, and answer it in the hallway. Use of laptops and tablets must be for class purposes only. NO ELECTRONIC DEVICES OTHER THAN CALCULATORS (BUT <u>NOT</u> THOSE ON PHONES) ARE ALLOWED DURING TESTS.
Participating in Class	Be on time and use the time for active participation with the material, asking questions and working problems.
Doing Your Own Work	If you turn in work that is not your own, you are subject to judicial review, and these procedures can be found in the College Catalog and the Student Planner. The maximum penalty for any form of academic dishonesty is dismissal from the College.

Withdrawing from Class	After the last day established for class changes has passed (see the College calendar), you may withdraw from a course by following the policy outlined in the CCSJ Course Catalog.
